Why Country Clipper?

Easy Access to Service Points

Every service point on the machine has been designed for easy access and maintenance.

Stand Up Deck

The world's first mid-mount Stand-Up Deck is standard on every Country Clipper model, allowing you quick, easy access to the underside of the deck for routine maintenance. In less than 60 seconds, you can lift your deck to approximately a 90 degree angle without any tools.

Joystick Control

This steering allows the operator to control their mower with one hand for ease of operation.

Maintenance Free & Field Serviceable Spindles

No messy greasing for the life of the spindle.

Durability

Country Clipper mowers are built with an all steel frame.

Habitat for Humanity

Schuyler County Habitat for Humanity
A Local Partner of Yates County Habitat for Humanity

We have some very exciting news! Schuyler County Habitat for Humanity has purchased another (our sixth) property on which we will build a home for our next partner family, and we are actively seeking that family. The property is in the Village of Montour Falls and is in the Odessa-Montour Central School District.

If you are interested in attending an information session about the possibility of becoming our next partner family, please contact Pat Avery via phone call or text (607-379-0784) or email (pavery@schuylerhabitat.org). Information sessions are scheduled for October 16, 10:30 am, October 17, 5:00 pm, and October 21, 2:00 pm.

We will be accepting partner family inquiries for this home through October 31, 2024.

EMPLOYMENT

SCHUYLER COUNTY DEPARTMENT OF SOCIAL SERVICES seeks to fill the position of Sr. Social Welfare Examiner. This is a full time, 35 hr per week, \$23.45/hr with excellent benefits. Interested candidates must submit an application to the Schuyler Co. Civil Service office. Competitive position — requires Civil Service examination to be taken at a later date. For information regarding specific qualifications for the position go to www.schuylercounty.us or contact Schuyler County Civil Service at (607) 535-8190.

Check out the Hi-Lites each week online at www.hilites.net.

PETS

MEET COOPER

Age: 2 years
Size: Large
Breed: Lab Mix
Sex: Neutered Male

"Say what? Walk? Out? Car? Swim? I'm in!" Whatever the adventure you have planned this handsome guy is ready to go! Smart, loyal, athletic and friendly, Cooper promises to be your steadfast companion. At two years old, Cooper still has lots of energy to burn so is happiest when he's busy and intellectually challenged. Given his size and enthusiasm, Cooper may be best suited for a home with older children and certainly one with active adults. If you have another canine companion, we'd suggest a meet and greet. He seemed to be fine with cats.

The adoption fee for adult dogs is \$225. All have been spayed or neutered, vaccinated for rabies, kennel cough, DH(L)PP, have had a complete fecal analysis, treated for internal and external parasites, are heartworm tested and on heartworm preventative and flea and tick preventative and are microchipped. Stop in on Monday and Friday from 10- 1, Saturdays from 10 - 4, Sundays from 2-5 without an appointment or call us at 607-594-2255 to schedule an appointment. Or, visit our website www.schuylerhumane.org to fill out an adoption application to get the process started.

The Humane Society Shelter is located at:
124 Marina Drive, Montour Falls, NY
607-594-2255 • info@schuylerhumane.org

Breast Cancer

Early detection saves lives!

AWARENESS MONTH

Are there different types of breast cancer?

Millions of women are diagnosed with breast cancer every year. According to the Breast Cancer Research Foundation, more than 2.3 million women across the globe were diagnosed with breast cancer in 2020. The BCRF also notes that breast cancer is the most frequently diagnosed cancer among women in 140 of 184 countries worldwide.

Breast cancer statistics can give the impression that each of the millions of women diagnosed with the disease is fighting the same battle, but breast cancer is something of an umbrella term. In fact, there are various types of breast cancer, including ductal carcinoma in situ, invasive ductal carcinoma, inflammatory breast cancer, and metastatic breast cancer. Learning about each type of breast cancer can help women and their families gain a greater understanding of this disease.

DUCTAL CARCINOMA IN SITU (DCIS)
 DCIS is a non-invasive cancer that is diagnosed when abnormal cells have been found in the lining of the breast milk duct. The National Breast Cancer Foundation notes that DCIS is a highly treatable cancer. That's because it hasn't spread beyond the milk duct into any surrounding breast tissue. The American Cancer Society notes that roughly 20 percent of new breast cancer cases are instances of DCIS.

INVASIVE DUCTAL CARCINOMA (IDC)
 IDC is the most common type of breast cancer. The NBCF reports that between 70 and 80 percent of all breast cancer diagnoses are instances of IDC. An IDC diagnosis means that cancer began growing in the milk ducts but has since spread into other parts of the breast tissue. This is why IDC is characterized as "invasive." Though IDC can affect people, including men, of any age, the ACS notes that the majority of IDC cases are in women age 55 and older.

watkinsglen
 ExploreWatkinsGlen.com

INFLAMMATORY BREAST CANCER (IBC)
 The NBCF describes IBC as an "aggressive and fast growing breast cancer." Breastcancer.org notes that IBC is rare, as data from the ACS indicates that only about 1 percent of all breast cancers in the United States are inflammatory breast cancers. Many breast cancers begin with the formation of a lump, but Breastcancer.org reports that IBC usually begins with reddening and swelling of the breast, and symptoms can worsen considerably within days or even hours. That underscores the importance of seeking prompt treatment should any symptoms present themselves.

METASTATIC BREAST CANCER
 Metastatic breast cancer may be referred to as stage IV breast cancer. When a woman is diagnosed with metastatic breast cancer, that means the cancer has spread, or metastasized, into other parts of the body. The NBCF indicates that metastatic breast cancer usually spreads to the lungs, liver, bones, or brain. Symptoms of metastatic breast cancer vary depending on where the cancer has spread. For example, if the cancer has spread to the lungs, women may experience a chronic cough or be unable to get a full breath.

These are not the only types of breast cancer. A more extensive breakdown of the various types of breast cancer can be found at <https://www.breastcancer.org/symptoms/types>.
