Obituary

ROBERT S. ZEMANEK JR., known to many as Bob, passed away on August 2, 2026, in Montour Falls, NY, following a brief admission to the hospital and skilled nursing. Born on November 21, 1942, in Johnson City, NY, Bob's life spanned more than eight decades, marked by professional dedication, steadfast character, and deep devotion to family.

A high school graduate with two years of college, Bob began his adult journey with service in the US Army where he served as a correspondent in Korea for Stars and Stripes. Following his discharge in 1966, he transitioned to a civilian career with the Department of Defense, a path that ultimately led him to the Seneca Army Depot, where he served as the public affairs officer until his retirement. This role was more than just a job—it exemplified his professionalism and his ability to command respect through both his presence and his actions.

The direction of Bob's career moved him and his family across various locales. Serving as the public affairs officer at SEAD, he was awarded the Army Meritorious Civilian Service Medal, in working with the global media regarding the anti-nuclear protests. Demonstrating both commitment to family and flexibility, he and his wife later moved to California to support her career interests after his own retirement.

Bob was widely recognized for his stoic yet disarming demeanor. He commanded a presence not only through his stature but also through his integrity, professionalism and with a wry smile. Beyond this exterior, those close to him experienced his kindness and supportive nature, qualities that endeared him to friends and colleagues alike.

Among all his accomplishments, Bob was most proud of his 55-year marriage to his beloved wife, Claudia Maxsom, and his enduring pride in his son, Robert Zemanek III. Bob's commitment to his family was unwavering, and his support formed the cornerstone of their lives together. He is survived by Claudia; his son, Robert; and Breana, who held a special place in his extended circle and by his sisters; Karen Byers of Idaho, Candice Johlin of Ohio; a sister-in-law, Susan Seal of Ohio, and many nieces and nephews. He was preceded in death by his brother, David Seal.

Bob's legacy continues through the lives he touched—his family, his colleagues, and his friends. His career, character, and commitment to those he loved will long be remembered with respect and admiration.

Military honors will be held at NYS Veterans Cemetery-Finger Lakes, at 11:00am on Wednesday, August 19, 2026. The family will then host a reception at the Ginny Lee Café in Lodi from 12:00 to 2:00pm. For additional information, please visit www.covertfuneralhome.com

MEET DAISY

Sex: Spayed Female
Age: 2 Years
Breed: Pit Bull Mix
Size: Medium

Daisies are the quintessential symbol of beauty and innocence, and subtle charm - a popular flower and loved by everyone. So, the name seemed perfectly fitting for this sweet girl who came to us as a stray. A fun-loving gal, Daisy is definitely a staff and volunteer favorite. She's a joy to walk, a great companion, and always by your side. She's a compact and petite little lady and just as pretty as can be. Daisy does seem to want to be the focus of all your affection but has found some canine buddies so we would suggest a meet and greet. Daisy is estimated to be about 2 years old.

The adoption fee for adult dogs is \$225. All have been spayed or neutered, vaccinated for rabies, kennel cough, DH(L)PP, have had a complete fecal analysis, treated for internal and external parasites, are heartworm tested and on heartworm preventative and flea and tick preventative and are microchipped. Stop in on Monday, Thursday and Friday from 10-1, Saturdays from 10-4, Sundays from 2-5 without an appointment or call us at 607-594-2255 to schedule an appointment. Or, visit our website www.schuylerhumane.org to fill out an adoption application to get the process started.

Bringing Life-Altering Relief to Those with Complex Neurological Conditions

An aching back that keeps you from performing basic daily tasks... pounding headaches that leave you tied to your bed... persistent tingling in your hands that make it so you're unable to feel the sensation of touch—these are all problems that lead to a consultation with a neurosurgeon.

"Patients of all age groups come to us. They all have different problems—trauma, tumors, degeneration, among many others, but common problems are still seen," says Dr. Turker Dalkilic, Neurosurgeon at Cayuga Health, a Member of Centralus Health.

A multitude of neurological conditions can affect people from newborns to the elderly. Generally, primary care providers, pain management specialists, or neurologists will try conservative treatment options before turning to surgical procedures.

"Surgery is the last resort for most pathologies we deal with. We try to treat conditions without surgery. Most of the patients we see don't require it. I try to focus more on minimally invasive techniques."

Conservative treatments for neurological issues are non-surgical, non-invasive therapies designed to manage symptoms, maximize functional

independence, and promote nervous system healing. In the event that all other treatment fails, patients will undergo further diagnostic testing to see if they're an ideal candidate for surgery.

"We try to put a lot of things together, including their symptoms, imaging findings, expectations, and general health conditions. From there, we try to figure out what the best next step is."

Neurosurgeons like Dr. Dalkilic offer more than surgical services, providing comprehensive neurological exams, diagnostic imaging, and treatment consultations.

Early diagnosis also opens the door to more treatment options and enables patients to take control of their health.

"It's important to identify a problem early on before it becomes a bigger problem with no return. That's very important."

If you are experiencing any changes, like sudden or worsening headaches, unexplained numbness, new coordination or balance issues, or unusual changes in memory, talk to your primary care provider.

Cayuga Health provides neurology and related spine care at 905 Hanshaw Road, Ithaca and 260 Tompkins Street, Cortland. Arnot Health offers neurology services at 100 John Roemmelt Drive, Horseheads; 600 Roe Avenue, Elmira and 84 Canal Street, Big Flats.

Solution on page 9

THE SCHUYLER COUNTY EMERGENCY MANAGEMENT OFFICE, in coordination with the TOWN OF HECTOR, will host a public information meeting on Wednesday, August 19, 2026, from 6 to 8 p.m. at the Valois, Logan, Hector Fire Department, located at 5736 NY-414 Hector NY, to discuss upcoming address changes for lake roads that are necessary as Schuyler County continues its transition to Next Generation 911 (NexGen 911). Residents living on roads between State Route 414 and Seneca Lake are encouraged to attend to learn more about the project, ask questions, and better understand how these changes will improve emergency response throughout the area. The purpose of this project is straightforward: public safety. Over the years, the Town of Hector has experienced significant residential growth, particularly along seasonal and lakeside roads. Many of these roads were originally designed to serve only a single or a small number of cottages. As development expanded, additional driveways, private lanes, and spur roads were created that were never intended to accommodate the number of homes that exist today. As a result, the existing addressing system has become increasingly difficult to maintain. In some locations, the original numbering system no longer provides enough available addresses. In other areas, several branches extend from a single road while all sharing the same road name, creating confusion for emergency responders attempting to locate a specific residence. When someone calls 911, every second matters. Firefighters, EMS personnel, law enforcement officers, and other emergency responders depend on accurate addressing and mapping to locate emergencies quickly. A confusing or outdated addressing system can delay response by forcing responders to determine which branch of a roadway or which residence is the correct destination. While these situations may only take a few moments, those moments can make a significant difference during a medical emergency, a structure fire, or another critical incident. Next Generation 911 is designed to improve the accuracy and reliability of emergency response by providing enhanced mapping and location information. To fully realize those benefits, local addressing must also meet modern public safety standards. “We recognize that changing an address is not something anyone looks forward to,” said Kirk Smith, Director of Emergency Services for Schuyler County. “For many residents, an address represents years of memories and familiarity. We understand those concerns, and these decisions were not made lightly. However, our responsibility is to ensure that when someone calls 911, responders can locate them as quickly and accurately as possible. These updates are being made with that goal in mind.” Whenever practical, efforts will be made to preserve existing road names. Some roads will retain most of their current identity, while others will require more substantial changes to eliminate confusion and create a logical, sustainable addressing system for the future. The August 19 meeting is intended to provide lake road residents with information about the project and answer questions from those who may be affected. Residents are encouraged to attend and participate in the discussion.
