This handsome, fun loving, happy go lucky, playful guy is sure to brighten your day - each and every day! He's all smiles! Always! Curling up on the couch? Petey is in! Long walk? Petey is in! Car ride? Totally in! You get the idea! He will be fiercely loyal to his family, as playmate, protector and companion. Despite having been abandoned by his former owner, Petey doesn't hold a grudge. He's never met anyone who is not his new bestie - Two or four legged alike.

What are the red spots around his eyes you ask? Petey had entropion surgery a couple of weeks ago to relieve the pain caused by his eye lashes constantly rubbing against his eyes and is recovering beautifully! It's not often an American Bulldog crosses our doors, so if you're a breed fan, don't wait! Petey is estimated to be about 5 years old.

DESCRIPTION OF THE PROJECT

The Project will be described in the Supplement. In summary, it is NYSEG’s proposal to: (1) rebuild one of its 115 kilovolt (kV) electric transmission lines, Line 965, which currently runs approximately 22 miles in Steuben and Schuyler Counties; (2) construct a new electric substation, the proposed Montour Falls Substation, in Schuyler County; (3) re-route several of its transmission and sub-transmission lines in Schuyler County to that substation from NYSEG’s existing Montour Falls Substation in Schuyler County; and (4) rebuild two of its 115kV electric transmission lines, Lines 963 and 978, each of which currently runs approximately 16 miles in Schuyler and Chemung Counties, including rebuilding approximately 8 miles of the southern portion of both lines on an existing NYSEG right-of-way located less than two miles to the east of the lines’ current right-of-way. (Item #4 above is substantially similar to the entire scope of the Project as it was described in the Application NYSEG filed on September 19, 2025.)

For the portions of the Project where the transmission lines will be rebuilt on the rights-of-way where they are currently located, the Project includes removal of all of the conductor, insulators and existing structures of the existing lines and replacing them with new facilities. The Project also includes: installing stormwater management features; establishing one or more temporary laydown/staging areas and marshaling yards; and constructing or improving supporting access roads.

Exhibit 3 of the Application will provide a description of the various alternatives NYSEG considered to address the need for the Project. The considered alternatives include alternative substation siting locations, alternative transmission line routes, alternative structure types, a no-action alternative, alternative transmission line technologies, and non-wires alternatives.

Exhibit E-4 of the Application will provide information about the need for the Project.

PROPOSED LOCATION

The proposed route of the Project extends approximately 40 miles and runs generally east and then south and southeastward from the Bath Substation in the Town of Bath in Steuben County, to the Proposed Montour Falls Substation in the Town of Dix in Schuyler County, to the Ridge Road Substation in the Town of Horseheads, Chemung County, and then to the Watercure Substation in the Town of Elmira in Chemung County. Between the four substations, the proposed route also passes through the Town of Bradford in Steuben County, the Towns of Orange, Dix and Montour in Schuyler County, and the Towns of Veteran, Horseheads and Elmira in Chemung County. The locations of the proposed transmission line facilities will be shown in Exhibit 2 of the Application and associated figures.

DATE OF FILING

NYSEG expects to file the Application with the Commission on or about September 30, 2026.

AVAILABILITY OF APPLICATION

A copy of the Application will be served upon the chief executive officers of Steuben County, Schuyler County, Chemung County, and the Towns of Bath, Bradford, Orange, Dix, Montour, Veteran, Horseheads and Elmira, and a copy will be available for public inspection in each of the following locations:

WATKINS GLEN ELKS LODGE DONATES \$4,000 TO SCHUYLER HEALTH FOUNDATION, GORGES GIVERS. Money will be used to purchase mobility equipment and provide support to women in Schuyler County navigating a cancer diagnosis. The Schuyler Health Foundation received a \$3,000 grant to purchase mobility equipment that will enhance patient care and support services for patients and residents. Gorges Givers was awarded \$1,000 to continue providing support to Schuyler County women navigating cancer treatment and recovery. The grants build on the Watkins Glen Elks Lodge's ongoing commitment to local healthcare and community wellness initiatives.

SEPTEMBER IS NATIONAL SUICIDE PREVENTION MONTH. Schuyler County Public Health and the Suicide Awareness for Everyone (S.A.F.E.) Coalition are asking the community to join in recognizing September as National Suicide Prevention Month. In 2024, nearly 49,000 people died by suicide in the United States, but suicide is preventable. September has been designated as National Suicide Prevention Month to help bring awareness to the prevalence of suicide, and to educate on the ways we all can work to prevent suicide in our communities. "We can all take steps to help prevent suicide in our community," said Schuyler County Public Health Director, Jill Kasprzyk. "This National Suicide Prevention Month, Public Health is partnering with S.A.F.E. to share strategies that have been proven to help support someone in crisis." Everyone can play a role in reducing the number of suicides. Understanding the warning signs and knowing how to approach someone who may be struggling with their mental health can save a life. There is a simple five-step approach

from the #BeThe1to campaign to follow if you know someone that may be having thoughts of suicide:

ASK: Asking the question "Are you thinking about suicide?" shows that you are willing to speak about suicide in an open and non-judgmental way. Asking directly helps create effective dialogue.

BE THERE: Show the person who is struggling you are there for them by listening to them talk about their pain with empathy and openness.

HELP KEEP THEM SAFE: If the person states they have thought about suicide, it's important to find out if they've planned or thought about how they would kill themselves. If they've made a plan, the next step is to limit their access to their chosen method.

HELP THEM CONNECT: Helping someone who is having thoughts of suicide connect to support and resources helps them build a safety net during times of crisis. This could be connecting them to a mental health professional or community group.

FOLLOW UP: Checking in with someone in the days and weeks following a mental health crisis is crucial in making sure the person still feels supported and connected. Whether it's a coffee date, a phone call, or a text, any outreach can potentially decrease the risk of a future suicide attempt.

Learn more about The Five Steps by visiting www.bethe1to.com. To learn more about S.A.F.E., or if you would like to join the coalition, visit www.SchuylerCountyNY.gov/SAFE.
